DETAILED ACTION

1. This action is responsive to the paper(s) filed 7/28/2008..

Claim Objections

2. Claim 49 is objected to because of the following informalities:

- "wherein said set of URLs included said CPI link structure" should be replaced by "wherein said set of URLs included with said CPI link structure"

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 49-58 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- The claims are system (apparatus) claims, yet they include many features which are presented as method steps rather than capabilities, rendering the claim scope uncertain. Most of the claim language appears to be directed at how managers and consumers put the system to use and what results from those actions, rather than claiming with particularity the structure (programmed capabilities) of each feature. In these computer-based system claims, the best way to set forth apparatus structure is to claim *capabilities* of

the apparatus by stating an element/module/subsystem is *programmed to* *<perform an act>* OR is *configured to <perform an act>*, rather than claiming that the element actively performs the act or that a user puts the element to use in a certain way for a certain result. For example, claim 49 states language such as:

- resources can be selected by one or more member
- MMVK can be installed in and launched from
- MMVK is implemented using
- MMVK tag is embeddable
- Each MMVK...displays a GUI
- CPI resources are selected by the...team members
- Upon the browser...encountering
- Component...is automatically executed
- MMVK is generated
- Claim 56 – the consumer clicking
- Claim 58 – USN is assigned...by said...network.

A claim covering both an apparatus and a method of using that apparatus is invalid because such a claim “is not sufficiently precise to provide competitors with an accurate determination of the ‘metes and bounds’ of protection involved” and is “ambiguous.” MPEP 2173.05(p)(ii).

Allowable Subject Matter

5. As best understood, claims 49-58 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
